<b>Bachelor of Computer Science</b> , UET Lahore New Campus	2021 - 2025
<b>Pre-Engineering</b> , Punjab College Gujranwala	2019 - 2021

## SKILLS

---

<b>Mobile Development</b>	Android (Java, Kotlin, XML), Flutter, Dart, Android Studio, Material Design
<b>Backend &amp; Database</b>	Firebase, REST APIs, SQL, Entity Framework, C#, C++, SQLite
<b>AI &amp; DevOps</b>	Claude AI, ChatGPT, Cursor IDE, Grok, Docker, AWS, Jenkins, Git, GitHub
<b>Deployment</b>	Google Play Store Publishing, CI/CD Pipelines

## PROJECTS

---

<b>Riddle Puzzle</b>	Live
----------------------	------

Boost your brain with daily puzzles, word games, and logic challenges for all ages! Track progress and sharpen skills with fun, engaging brain teasers.

*Technologies: Java, XML — Play Store: [Link](#) — GitHub: [Link](#)*

<b>Sentiment Analyzer</b>	Live
---------------------------	------

Understand your emotions with instant AI analysis—just share your thoughts and receive personalized mood insights and encouragement. A simple, private tool for self-awareness and emotional tracking anytime.

*Technologies: Java, XML — Play Store: [Link](#) — GitHub: [Link](#)*

<b>DailyNews – REST API News App</b>	Completed
--------------------------------------	-----------

Your all-in-one news hub built with Flutter, delivering trending stories from trusted sources via REST API. Enjoy customizable categories, offline reading, and breaking alerts in a sleek interface.

*Technologies: Flutter, REST APIs — GitHub: [Link](#)*

<b>Final Year Project</b>	Completed
---------------------------	-----------

Flutter-based app revolutionizing electronics trade by combining buying, selling, and repair services with AI image recognition. Enjoy smart search, role-switching, and real-time transactions in one secure platform.

*Technologies: Flutter, Dart, Firebase — GitHub: [Link](#)*

## EXPERIENCE

---

### Mobile App Developer (Freelance)

- Published 2+ Android apps on Google Play Store with AI-assisted development
- Managed complete app lifecycle from development to Play Store maintenance

## ACHIEVEMENTS & ACTIVITIES

---

- Successfully published and maintain 2+ live Android applications on Google Play Store
- Expert in AI-assisted development (Claude, ChatGPT, Cursor) for rapid prototyping
- I can build a complete app just with the prompts using AI.
